10. QR Code Activation Records

11. Historical activation data

12. Redirect URL

How to set up NFC website links:

1. Download the "NFC Tools" application from the Apple App Store or Google Play Store.

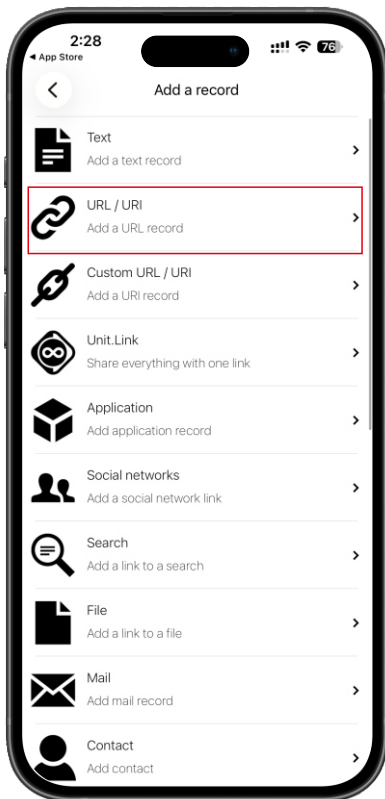

Apple App Store:

<https://apps.apple.com/us/app/nfc-tools/id1252962749>

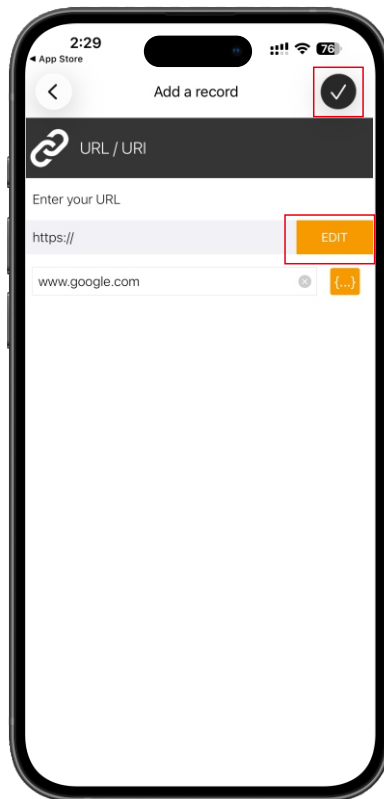

Google Play Store:

https://play.google.com/store/apps/details?id=com.wakdev.wdnfc&hl=en_US&gl=US

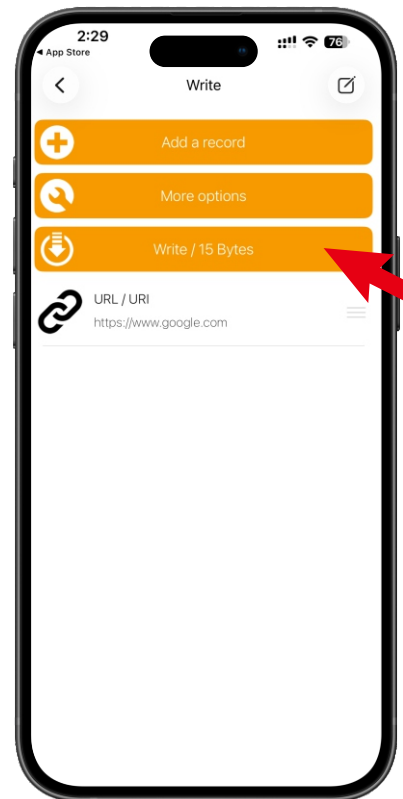

2-3. After entering the application, click "write", then select "Add a record".

4

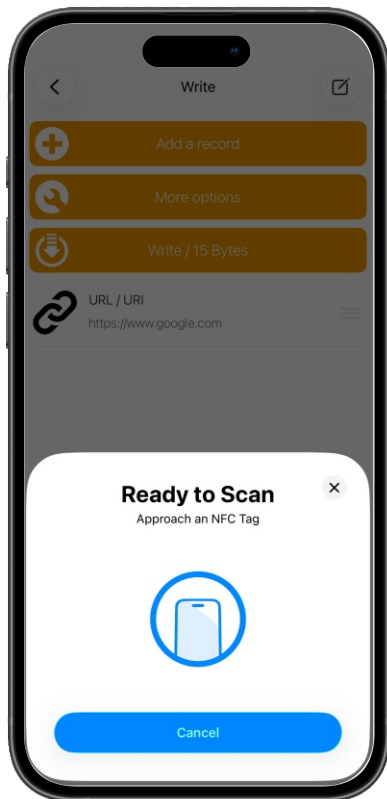

5

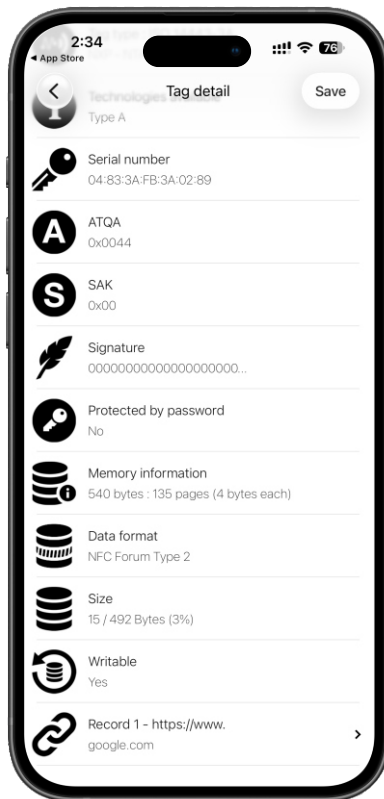

6

4-5. Select "URL/URI" to enter the settings interface.
Enter the link of the webpage you want to set and then click the "OK" button on the top right corner.

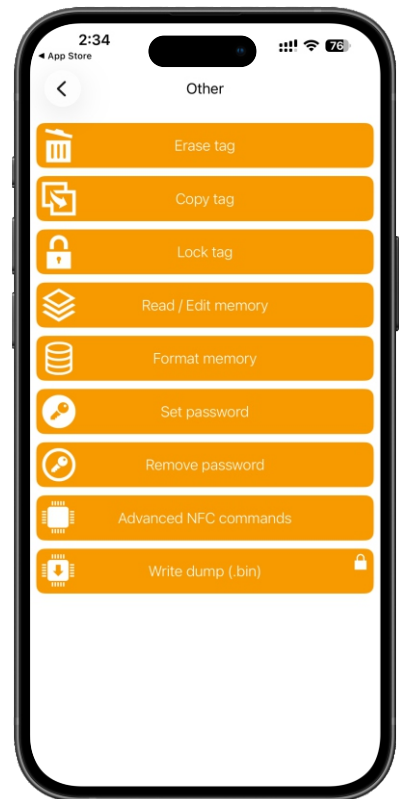

6. Click on "writer /** bytes"
(“**” Represents the actual number of bytes you entered)

7

8

9

7-9. Place the card in the NFC sensing area of your mobile phone. The prompt "Write successful" indicates that your settings have been completed.
